BUILD A BETTER FUTURE!

Engineers use their imagination to invent, design, and build solutions to problems. By questioning how things work and inspiring critical thinking, our classes teach curious builders to think like real engineers.

“Our kid comes home every Tuesday raving about how much fun he had at Early Engineers. Especially after building the robot arm!”

A. TRAVERO
Facebook Review

Why Early Engineers?

- 1 Our kids need the real world skills and experience that can only be gained through STEM (Science, Technology, Engineering and Math).
- 2 Each week, Early Engineers offers a new building challenge using a variety of materials such as Legos, K'nex, Citiblocs or even LED circuits.
- 3 We choose concepts that would otherwise not be covered until middle, or even high school. Think: *energy conversion, gravity, amplitude*, and many more!

At Camp EDMO™, kids develop their creative capacity, unleash their inner scientist and technologist, and plumb the mysteries of the natural world. They lose themselves in STEAM-infused activities designed in concert with experts from brilliant museums. And there's a deeper level. Ultimately, our camp experience inspires young people to accept themselves and others, push their boundaries with confidence and, most importantly, act with real kindness and compassion. Kids grow on lots of levels.

We develop Camp EDMO's curriculum in partnership with:
